

Trimmers

JARVIS

The Jarvis meat bone Trimmer.

High-performance bone and fat removal. The patented adjustment-free housing saves time during production. The sturdy handle is manufactured of quality materials. The ergonomic and lightweight design reduces fatigue, thus optimizing work flow. Additionally, Turbo Trim is supplied with precision and hardened Swiss blades in numerous designs.

It comes with an electric motor drive with 220 V Single Phase, with easy installation.

Flexible shafts makes hand piece easy to move around meat.

ULTIMATE POWER - EXCELLENT PERORMANCE
